1.4.2 How the feedback obtained is being analyzed and utilized for overall development of the institution? (maximum 500 words)
<p>The student feedback survey was designed keeping in mind the teaching-learning parameters of the course as per the NAAC guidelines of the Criteria II. Each course had a feedback form containing questions on course content, teaching methodology and its effectiveness and assessment methodology. The student could also provide additional comments or suggestions for improving the teaching-learning process at the end of the survey. The feedback form was designed and uploaded as a google form. The google form link was sent to the students of their respective streams through their emails. A deadline to fill the feedback back was given and thereafter the data collected from the forms was analysed. The forms gave a graphical representation of the students’ responses to the various questions in form of pie charts. The data was viewed of the collated responses of the students per course feedback and discussions were conducted by the Principal with respective HOD’s in improving the effectiveness of the teaching-learning process. The students’ suggestions were looked into and prioritized accordingly to facilitate improvements in the teaching process for the faculty. The online feedback survey was faster than collection through paper based feedback and reduced in the unnecessary usage of paper as well as time to compute the responses collected by the student to produce the overall collated feedback of a course.</p>

2.3.2 Students mentoring system available in the institution? Give details. (maximum 500 words)
<p>Students mentoring system has been initiated by the IQAC. The Institution has constituted a Mentoring Committee to chalk out a plan and provide guidelines to the faculty regarding the mentoring process. Mentoring system is undertaken not only by the full time permanent faculty but also by the faculty who are appointed on contractual and lecture basis. The Committee appoints the mentor for a particular group of students. The ratio is 1:10 for UG and for PG it is 1:5. The names of the mentees are given to the particular faculty (the mentor). The mentor fills in the details of the mentee in a prescribed form prepared by the Mentoring Committee. The mentor meets the mentee once in a week or it may be often depending upon the needs of the mentee. During the meeting both mentors and mentees utilize the following core skills in their mentoring partnership.</p> <ol style="list-style-type: none"> 1. The mentor plays a very important role of listening actively to the mentee. Active listening is most basic to mentoring. 2. Besides uninterrupted listening the mentor also motivates, encourages and helps the mentee to identify his/ her goals. Moreover, every mentor provides instruction and helps to develop capabilities of the mentees. The mentor provides guidance to the mentee regarding academic and stress related problems. The mentor also provides corrective feedback. 3. Every mentor displays faith in the mentees abilities. He / she also nurtures great skills like patience, compassion and understanding. Mentoring in this Institution is picking up slowly and is definitely going to gain momentum in the years to come. 4. Mentoring has helped the faculty to identify problems faced by slow learners. It has also helped to encourage advanced learners. Mentoring has proved to be a blessing in disguise because it has helped to decrease the student drop-out rates. Moreover, it has helped the mentors to prepare students to face the competitive world.

responsible towards their surrounding and emerge as physically and mentally strong individuals and thereby promote a healthy society.

The Practice: The college has taken many initiatives for community services and development such as:

1. Cleanliness and e-waste drive

This Institution is nestled and surrounded by villages to whom it is committed to dedicate its energies to transform and make it single use plastic free. Activities undertaken includes:

- The plastic collection drive conducted on 14th August, 2018 in and around Marcel Market succeeded in collecting 20kgs of plastic bottles, bags etc.
- The cleanliness drive at St. Estevam Fort ended up by collecting a lot of plastic.
- The cleanliness drive was followed by distribution of 30,000 cloth bags in Marcel Market on 2nd October, 2018.

2. Promoting Swachhata in the neighbouring villages through Shramadaan

This Institution has been instrumental to bring about Swachhata which has lent a helping hand to reach out to the neighbouring villages and to work towards their transformation. This Initiative has instilled in the N.S.S. volunteers a spirit of devotion to make them responsible citizens of our nation. They have been able to imbibe these values in the local community through street plays, rallies, cleanliness drives and by subsequently observing the Shramadaan Week.

This initiative has helped the surrounding villages through several activities conducted namely, the Shramadaan Week was devoted to conduct plastic collection drives at St. Estevam, Devki Krishna Ground, Devlai Khandola and Betki Primary Health Centre.

3. Yoga and Meditation

The main objective of introducing Yoga and Meditation is to make the students emerge as physically and mentally healthy individuals and thereby promote a healthy society.

Here are several ways our students and the local community have been benefitted from this.

- This best practice has improved the power of concentration and has enabled the students to focus on their studies.
- It has also helped them to be disciplined and active.
- It has enabled self-awareness and improved their self-esteem and confidence.

Evidence of Success: Swachhata Initiative is a continuous and on-going process to inculcate the values of cleanliness not only among the students but also in the neighbouring villages. This mission of patriotism has enabled the N.S.S. volunteers to collect 13,400 empty plastic milk bags, to make and distributed 5,200 paper bags and to collect 226 Kg of e-waste. The students and members of the local community who have attended the sessions on Yoga and Meditation have learnt to combat depression by releasing negative energy. The success of this best practice was the testimony when the local community attended the sessions on Sundays and students reached very early to take part before their regular classes.. Regular practice of Yoga has enhanced their abilities to balance the poses in the class and focus well outside the class.

The institution has earned a reputation for being a premier Institution in the State, which is well known for academics, sports and other extra- curricular activities. Programmes of certain disciplines such as Post graduation in Geography is unique in Goa, Psychology and Microbiology studies are to unaided colleges and is most popular to this institution hence are highly sought after programmes.</p> <p>The College opened its doors in June 1989, for imparting knowledge to the first generation learners of rural areas of Khandola, Marcela and Ponda Taluka to bring about a radical change in the society. The college being situated in a serene and naturally endowed surroundings provides for a tranquil and peaceful learning environment and is also known for its rich culture and is considered as the cultural capital of Goa. The distinct characteristic enables the preservation of ancient Gurukula tradition which is our well thought out strength of character for creation of eligible human resource.</p> <p>Although a co-ed institution, the college enrolls a large number of women students and strives for their successful upliftment, and empowerment. The college human resource comprises of a large number of female employees who are highly motivated and are empowered as is evident from the fact that women hold most responsible positions in the institution</p> <p>Established with humble beginnings and subsequently thereafter following a prosperous path the Institution has progressed by leaps and by bounds acquiring all pre-requisite affiliation from Goa University and UGC Certification of recognition under 2(f) and 12(B).</p> <p>Today the College is able to position itself as a reputed educational entity in fields ranging from academics, vis-à-vis Humanities, Sciences and Business Entrepreneurship studies, sports activities and cultural programmes by providing access to quality education for all, with a special emphasis on under privileged students enrolling from geographically backward area within the state of Goa. The College participated in NIRF in 2018-19 and was placed in the rank band of 100 to 150. The new found status by way of NAAC accreditation and NIRF rating inspired the faculty and administrative staff to give their best which in turn resulted in quality enhancements in the areas of academics, sports and cultural activities. The government of Goa has provided adequate infrastructure,</p>

the new building is the only structure in the State to get the certification of green building by GRIHA. The Directorate of Higher Education has also equipped the Institution with 19 smart classrooms and 1 virtual classroom.

Research finds a prime position in the minds of the students and faculty and it reflects in the quality of work done so far for the benefit of the society and mankind. As a consequence, the College has established Post Graduate Centre in Chemistry, Commerce and Geography. The vibrant IQAC, Alumni, PTA and exemplary work done by the various committees brings the College to the forefront in various fields and materialises the concept of holistic development of the individuals. The college boasts of having a large number of faculty members who have successfully completed their research and have been awarded a PhD, and an equally large number of newly recruited faculty members pursuing their research. The research work has been recognised and published in reputed bodies such as SCOPUS and the web of Sciences.

The academic performance of our students is exceptional in spite of the fact that majority of them are first generation learners. One reason for the good academic performance of the students is the special interest taken care off, by the faculty members in mentoring them through remedial coaching. Special attention to slow learners, and competitive moulding of the creamy layer ensures that need based teaching-learning dynamics are very active and at the core. Apart from regular academics, the institution takes keen interest on the all-round development of the learners to ensure their physical, spiritual and career needs are satisfactorily honed. The differently-abled are also taken care of by imparting skill based activities. Yoga and meditation sessions have helped the students to have a healthy mind in a healthy body. Sports and extra-curricular initiatives through the N.S.S have always borne fruits in the form of excellent performance and winning of awards at various levels.

With time, the College has emerged strong in its pursuit for quality assurance to make this Institution a Centre for Excellence in line with the College Vision. Our faculty members are committed to the mission of our College - "To dedicate its energies to be responsive to the needs of an ever-changing society by promoting excellence in academics and art".
