Accredited by NAAC with ' A ' Grade (28/03/2017 to 27/03/2022)

Waste Disposal Policy

Our college will strive to reduce waste generation by minimizing the use of disposable items, such as single-use plastics and paper cups. We will encourage students, faculty, and staff to bring their reusable water bottles, coffee mugs, and lunch containers.

Implement a recycling program: We will establish a comprehensive recycling program that includes the collection and separation of recyclable materials such as paper, cardboard, plastic, glass, and metal.

Promote composting: We will promote composting by providing compost bins on campus for food waste and yard waste. The resulting compost can be used for landscaping or gardening.

Educate the campus community: We will educate students, faculty, and staff on the importance of waste reduction, recycling, and composting through posters, signage, and educational campaigns.

Purchase environmentally-friendly products: We will purchase environmentally-friendly products, including those made from recycled materials or those that can be easily recycled.

Minimize hazardous waste: We will properly handle and dispose of hazardous waste, such as chemicals and batteries, in compliance with local, state, and federal regulations.

Implement waste reduction strategies at events: We will implement waste reduction strategies at events held on campus, including using compostable plates and utensils, providing recycling bins, and reducing single-use plastic water bottles.

Encourage electronic communication: We will encourage electronic communication, such as email and online document sharing, to reduce paper usage.

Monitor waste reduction progress: We will regularly monitor and evaluate our waste reduction progress to determine areas for improvement and identify best practices.

Provide leadership and accountability: Our college will demonstrate leadership and accountability in waste reduction efforts by setting goals, measuring progress, and reporting on our achievements to the campus community.
